Post: Giant Steps to Save the World

Read this quote from Pope Francis, “Today, amid so much darkness, we need to see the light of hope and to be men and women who bring that hope to others. To protect creation, to protect every man and every woman, to look upon them with tenderness and love, is to open up a horizon of hope; it is to let a shaft of light break through the heavy clouds; it is to bring the warmth of hope!”

In your own words, explain what this quote means to you. (How does this quote apply to today’s theme, “The hope among us.” What is one small or giant step you could make to help others out and make the world a better place? What is your next step going to be?)
