

Week 2 (April 14) Read This

Hello 7 Immersion! I hope everyone enjoyed Easter weekend with their families. We celebrated at home with our usual foods and online with our extended family and Church community.

This week we will focus on our INS presentations. Remember your visual component of your INS was due before the break, on March 13, so if you haven't sent me a photo of your poster board or shared your power point presentation please do so as soon as possible.

This week we have the following 2 Goals...

Week 2 Goal #1: Decide how you will complete your presentation and prepare. I welcome whatever format works for you. The two main options are: live video chat (using Teams you present to a small group of fellow presenters and Mrs. Barrett online) or prerecorded (record yourself presenting and share or send to Mrs. Barrett). Each of these options have some flexibility for you to determine what will work best for you. Ask questions in the Goal 1 post.

Week 2 Goal #2: Share your plan with Mrs. Barrett in the Goal 2 post. Students who want to present in a live video chat may coordinate with others to create a group of up to 5 people and suggest a time for the meeting to Mrs. Barrett. Live online meetings should take place on a weekday between 8:30 and 2:00. **Please post your plan to the Goal 2 post by Friday, April 17.**

Please continue to read every day for a minimum of 30 minutes. Remember SORA is also available.

Online meetings are paused for this week. There have been some challenges experienced by some Teams. The teachers will work to address these challenges this week and I hope to make this option available again next week.

I have been so impressed with your support of one another and your willingness to take risk and try this new way of learning. Keep up the excellent work!
